PROFESSIONAL EXPERIENCE

Frontend Web Developer

Say=Do Technologies Ltd

10/2021 - Present

Herzlia Pituach

IRM (Internal Relationship Management System)

Job description:

- Using **React JS** & **Typescript** environment.
- Implement pure and smart components. State management in **Redux** (with Redux-toolkit and async middleware), Hooks, Routing and many other React features.
- Working closely with a designer and use plain **CSS** and **Material-UI** library for the components design.

EXPERTISE

Focus on frontend technologies. Javascript, HTML, CSS and Typescript. React JS - including the latest features of the framework. Additionally, experience with the basics of several backend technologies. Good understanding of client-server communication.
